The **KENYA EVENT** to create a glamping party space

The KENYA EVENT is based on the lodge version and is the ideal glamping area for games, parties or a dining area that your guests will love.

A delightful experience, these new units will blend in perfectly with the natural setting of your campsite. With 2 entrances to each gable, the removable canvas opens easily, letting you enjoy the great outdoors - indoors.

TRIGANO floors can be joined together to create large, open, communal spaces.

The **KENYA EVENT** endless possibilities

The ultra-reinforced timber frame can support a host of different events.
Your KENYA EVENT plans will need prior approval from our design office.

KENYA EVENT
