Over 90 years of experience

and development in the concept of leisure and HPA*. Manufactured in France at our factories in Sarthe, Drôme and Loiret.

Technical innovations

in fabric treatment and simpler handling (assembly/dismantling).

Real-life testing

Our designs are assembled and tested outdoors over several years at our production sites.

Continuous quality control

throughout the manufacturing process to guarantee you a long-lasting investment.

* HPA: Hôtellerie de Plein Air (Outdoor accommodation)

Expertise

The floor

We source Scandinavian wood from sustainably managed forests.

Autoclaved pine has a long lifespan, which is essential for our lodges and bungalows.

The structure

Made of wood or steel, our structures are weather-resistant and can be left up all year round.

The metal parts are made from galvanised steel and the timber frame from autoclaved pine.

The canvas

The roof is made from M2 PVC. The tent is made from M1 polycotton fabric or M2 PVC, depending on the model.

The canvases are waterproofed and treated to be resistant to UV rays, rips and mould.

High quality fabrics

Polycotton fabric

KENYA, TIPIHOME, MOOREA tents

This technology has a number of advantages:

- ✓ M1 fireproof properties for extra safety and protection;
- ✓ Improved resistance;
- ✓ A cotton effect for an unbeatable look.

PVC fabric

- All roofs
- The MARQUISES walls

Used mainly for our roofs, PVC fabrics offer:

- ✓ M2 fireproof properties for extra safety and protection;
- ✓ Durability and resistance;
- ✓ Easy maintenance.

Preserving nature and respecting the environment are fundamental values here at the TRIGANO Group. Our corporate culture and our business, which has been focused on outdoor leisure activities for over 90 years, depend on it.

The eco-friendly choice

The very concept of a canvas shelter is eco-friendly and in harmony with nature.

Wood is the ultimate natural material.

Its use in the terraces of TRIGANO canvas bungalows and its provenance from sustainably managed forests make it a natural fit with the environment.

TRIGANO incorporates recycled materials (95% recyclable) in its manufacturing process.

TRIGANO is careful to limit its impact on the environment, using water-based glues with no VOCs (Volatile Organic Compounds).

TRIGANO encourages its suppliers to introduce waste sorting and recycling systems.

Camping and glamping holidays rely increasingly on an online presence. But having a website isn't the same as having an online presence. For that, you need effective search engine optimisation to make it easier for your customers to find you.

Our site www.trigano-hpa.com benefits from exceptional organic search engine rankings, and we want to share this with you.

We've set up an interactive map system so your customers can be directed to your home page in just a few clicks.

Videos and photos of each lodge and bungalow are available to make your brochures and websites even more attractive..

We're also talking about you on our social networks!

When our customers send us photos of our lodges being set up, installed or in use, we share the information on our social networks. On Facebook, over

30,000 people follow our page and love seeing where our lodges are located. We mention the partner campsite's page, bringing in extra visitors and potential followers.

Spread the word on our social networks and share your photos with your TRIGANO HPA contact!

You can also integrate videos from our YouTube channel into your own website to give your customers a better look at our products. Videos have a higher customer conversion rate.

TRIGANO services

Delivery

Free delivery in mainland France excluding islands and special transport and unloading.

From trucks to trailers, with or without forklifts, depending on the options chosen. Our partners handle this process very safely.

Assembly

This must be carried out correctly to ensure the safety and durability of the lodges. TRIGANO offers you a specially adapted solution for the best possible assembly.

TRIGANO offers turnkey installation

- A pre-site visit to check the feasibility of the project and the location of the plots;
- Delivery and unloading using our forklift trucks by a CACES 3 and 9 certified forklift operator;
- Assembly of all the goods (floors, lodges and kits) by one of our teams;
- Connection of electricity and plumbing to the site's utility systems;
- An inventory at the end of the installation.

5-year warranty on all goods fitted, excluding ancillary equipment*

* Documents relating to warranties for ancillary equipment not designed by TRIGANO MDC (e.g. toilet cistern, furniture, tent zips, stove, fridge, hob, sink, oven, heating, water heater, air conditioning, light fittings, etc.), which are subject to specific regulations or approvals and are part of your tent, will be given to you when it is delivered. This equipment is covered solely by the commercial warranty provided by its respective manufacturer or vendor.

KENYA 34 "no water connection"

An **outdoor** adventure

The safari style of this lodge will take your guests on an extraordinary adventure, inspired by the wood frame and cotton effect canvas.

The KENYA has a side height of 2 metres for extra volume and light.

Available with either a bright new veranda or a gable entrance to the lodge on the inside of the terrace (the 2 options are compatible with each other on the KENYA 34 model with or without a bathroom).

Our Vintage furniture kits coordinate perfectly with the timber frame and canvas.

The KENYA can be left up all year round.

KENYA 34 RANGE with or without bathroom

General features

The structure

The sturdy KENYA structure features class IV autoclaved pine framework, steel connectors and exterior fabric panels tensioned by stainless steel ratchet straps. This means that the KENYA can be left up all year round.

Adjustable stilts from 18 to 200 cm allow the floor to adapt to any terrain, without damaging it
(max height = 160 cm at the front of the lodge).

1 set of stairs with 1 to 7 steps and 2 handrails (included) for stilt floors, max. height: 160 cm.

1 set of stairs with 1 to 4 steps and handrails (optional) for stilt floors, max. height: 90 cm.

Unique holidays in the TIPIHOME

Rediscover your childhood dreams in our unusual new accommodation, with a main bedroom and a children's bedroom upstairs.

A bathroom with WC and washbasin is built in for extra convenience.

You can also add to your outdoor space with our raised terrace.

Fast, simple and fun

The original design of the TIPIHOME means it can be set up to suit many different plots, thanks to its stilted floor.

With a strong treated wooden structure and high quality fabric, there's no need to dismantle it in winter.

TIPIHOME

General features

The **flagship** bungalow of the range

Great value for money.

Made from PVC, the MARQUISES is based on our classic CARAÏBES bungalow.

The completely redesigned MARQUISES offers more space and can be left up all year round (except in snowy weather).

Sleeping 4 people in 2 spacious bedrooms, the MARQUISES is the ideal bungalow for trying out the experience of a holiday under canvas and rediscovering the joy of childhood camping trips, but with some extra comforts.

Mounted on stilts with 2 steps, you can add a terrace (optional) for extra space.

MARQUISES

General features

Bungalow area: $4.40 \times 4.40 \text{ m} = 19.36 \text{ m}^2$.

Terrace area (optional): 12.80 m^2 .

Bedroom area: $2.20 \times 2.20 = 4.84 \text{ m}^2$.

Number of bedrooms: 2.

Structure

Framework: galvanised steel $\varnothing 30 \times 1.5 \text{ mm}$.

Canvas

Inner canvas: 200 g/m^2 cotton velum.

Tent : coated PVC 640 g/m^2 - M2.

Roof: coated PVC 640 g/m^2 - M2.

Canvas tensioning: ground clips and rails.

The **KENYA EVENT** to create a glamping party space

The KENYA EVENT is based on the lodge version and is the ideal glamping area for games, parties or a dining area that your guests will love.

A delightful experience, these new units will blend in perfectly with the natural setting of your campsite.
With 2 entrances to each gable, the removable canvas opens easily, letting you enjoy the great outdoors - indoors.

TRIGANO floors can be joined together to create large, open, communal spaces.

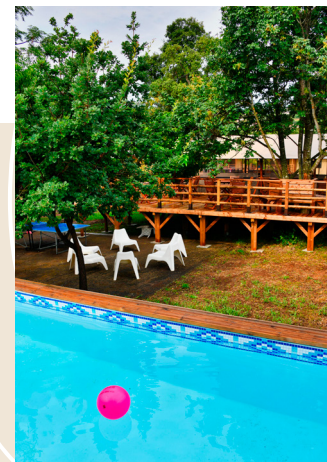

The **KENYA EVENT** endless possibilities

The ultra-reinforced timber frame can support a host of different events.

Your KENYA EVENT plans will need prior approval from our design office.

KENYA EVENT

anchoring kit

*Floor adjustable from 18 to 200 cm and fitted with 90 x 90 mm posts to adapt to your terrain.
The stilt floors blend in perfectly, without detracting from the landscape.*

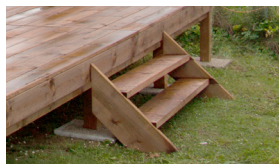

Stilt flooring in pre-assembled sections

TRIGANO floors are top of the range in terms of durability achieved by selecting the very best wood from certified Scandinavian forests. They are made from wooden deck boards autoclaved to European standards.

Stilt flooring is long-lasting, stable and adaptable to any terrain, so you don't need to dig up your land.

Mounted on **gravelled slabs**, the floor frame is composed of 95 x 45 mm joists and 120 x 45 mm crosspieces. Optional: anchoring kit.

Stairs with 1 to 7 steps, for a floor height from 18 to 200 cm, with a maximum height of 160 cm at the front of the lodge. Handrail (optional).

Stairs from 1 to 10 steps only for the MOOREA model (H 200 cm).

Pre-cut of 27 x 145 mm deck boards for quick and easy assembly and an insulation system with an under floor tarpaulin to prevent cold draughts rising inside the tent.

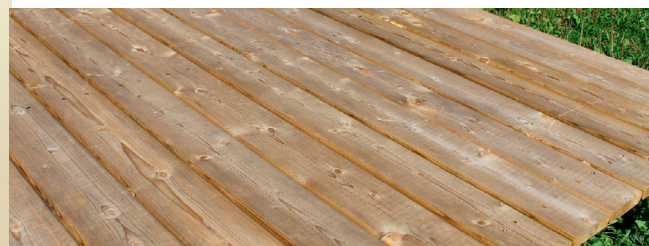

NB: only the posts need to be trimmed to adjust the floor level.

Stainless steel screws

Ground terrace

Independent of the stilt floor. It is made up of 95x45 mm joists and 27 x 145 mm deck boards.
