

A green kettle hangs from a wooden tripod structure over a campfire. The fire is burning brightly, with logs and sticks visible. The background is a blurred natural setting with trees and a body of water.

Over 90 years of experience

and development in the concept of leisure and HPA*. Manufactured in France at our factories in Sarthe, Drôme and Loiret.

Technical innovations

in fabric treatment and ease of handling (assembly / dismantling).

Real-life testing

Our designs are assembled and tested outdoors over several years at our production sites.

Commitment to quality control

throughout all our manufacturing processes to ensure a sustainable investment for you.

HPA = hôtellerie de plein-air (outdoor accommodation).

1935

The TRIGANO family invented the brand of the same name in 1935, the year in which they began selling textile products under the TRIGANO brand.

1936

The first paid holidays took place in France and TRIGANO sold canvases and tents, promoting the idea of camping.

1945

The company was founded by Raymond Trigano and his sons, specialising in the distribution of camping and sports equipment.

1971

The company diversified into manufacturing caravans.

1974

For financial reasons, Crédit Lyonnais took control of TRIGANO, which was privatised some ten years later.

1981

François Feuillet joins TRIGANO and starts manufacturing motorhomes, trailers and garden equipment.

1998

TRIGANO is floated on the stock exchange and begins to make acquisitions, mainly in the motorhome sector.

The TRIGANO experience

Expertise

The floor

Scandinavian wood from sustainably managed forests.

The autoclave treatment of the pine ensures optimal durability, essential for our lodges and bungalows.

The structure

Made of wood or steel, our structures are weather-resistant and can be left up all year round.

The metal parts are made from galvanised steel and the timber frame from autoclaved pine.

The canvas

The roof is made from M2 PVC. The tent is made from M1 polycotton fabric or M2 PVC, depending on the model.

The canvases are waterproofed and treated to be resistant to UV rays, rips and mould.

High quality fabrics

Polycotton fabric

- ☐ KENYA
- ☐ TIPIHOME
- ☐ MOOREA

This technology provides various advantages:

- ☑ M1 fireproof properties for extra safety and protection
- ☑ Improved resistance
- ☑ Exceptional aesthetics with a cotton-like appearance.

PVC fabric

- ☐ All roofs
- ☐ The walls of the MARQUISES and BALI

Used mainly for our roofs, PVC fabrics offer:

- ☑ M2 fireproof properties for extra safety and protection
- ☑ Durability and resistance
- ☑ Easy maintenance

TRIGANO services

Delivery

From trucks to trailers, with or without forklifts, depending on the chosen options. The whole process is carried out **safely** with our partners.

Assembly

This must be carried out correctly to ensure the safety and durability of the lodges. TRIGANO offers you **a specially adapted solution** for the best possible assembly.

TRIGANO offers you turnkey installation.

- ⊗ A pre-site visit to check the feasibility of the project and the location of the plots;
- ⊗ Delivery and unloading using our forklift trucks by a CACES 3 and 9 certified forklift operator;
- ⊗ Assembly of all the goods (floors, lodges and kits) by our teams;
- ⊗ Connection of electricity and plumbing to the site's utility systems;
- ⊗ An inventory at the end of the installation.

GUARANTEE on all equipment fitted (5 years) excluding peripherals*

* Documents relating to warranties for ancillary equipment not designed by TRIGANO MDC (e.g. toilet cistern, furniture, tent zips, stove, fridge, hob, sink, oven, heating, water heater, air conditioning, light fittings, etc.), which are subject to specific regulations or approvals and are part of your tent, will be given to you when it is delivered. This equipment is covered solely by the commercial warranty provided by its respective manufacturer or vendor.

KENYA 46

KENYA 46 no water connection

🛏 Double (2.55 x 2.35 m) + children (2.30 x 2.35 m)

🏠 46 m² (5.00 x 9.20 m)

👤 4 to 6 people

KENYA 46 BATHROOM

🛏 Double (2.55 x 2.35 m) + children (2.30 x 2.35 m)

🏠 46 m² (5.00 x 9.20 m)

👤 4 to 6 people

KENYA 46

with or without bathroom

A comfortable sleeping area

A lodge the whole family will love

KENYA lodges are designed with 2 bedrooms at the back. The main bedroom is equipped with a double bed, while the second bedroom features a bunk bed with three sleeping spaces. The KENYA 46 version can be equipped with a sofa in the living area that converts into a double bed (optional).

General features

Size of lodge:

46 m²

Room size:

6 m² double bedroom
5 m² children's bedroom

Terrace area:

14 m² in standard floor version

Number of bedrooms:

2 bedrooms

4 to 6 people

General structure

Framework: autoclaved pine, 68 x 68 mm + zinc-plated steel connectors and black polyester paint.

Post height*: 200 cm. The height of the posts corresponds to the height of the walls.

Canvas

Tent: polycotton fabric 420 g/m² - M1.

Roof: PVC 640 g/m² - M2.

Canvas tensioning: ground clips and rails.

Roof tensioning system on the frame: stainless steel ratchet straps.

Terrace side panels (optional):

PVC 640 g/m² - M2.

Stilt floor

To be positioned on gravelled slabs.

Adjustable flooring that adapts to the configuration of your land.

Underfloor tarpaulin to prevent cold draughts rising.

Autoclave treatment.

4 step height: 90 cm max.

7 step height: 160 cm max.

Floor area: 976 cm x 536 cm = 52 m².

Floor area with XL terrace: 1152 cm x 536 cm = 62 m².

KENYA 34

with or without bathroom

A wooden frame cotton effect canvas

The KENYA can be left up all year round.

The KENYA has a side height of 2 metres for extra space and better increased brightness.

It is available either with a new, very bright veranda or with an entrance gable located on the inner part of the terrace (both options are compatible with each other on the KENYA 34 model, with or without a bathroom).

Our furniture kits coordinate perfectly with the wooden frame and canvas.

General features

Size of lodge:

34 m²

Room size:

6 m² double bedroom
5 m² children's bedroom

Terrace area:

14 m² in standard floor version

Number of bedrooms:

2 bedrooms

4 to 6 people

General structure

Framework: autoclaved pine, 68 x 68 mm + zinc-plated steel connectors and black polyester paint.
