

KENYA EVENT

KENYA EVENT

Glamping party spaces

Derived from its lodge version, the KENYA EVENT provides an ideal glamping space for games, parties, or for creating a dining area your guests will love.

A delightful experience, these new units will blend in perfectly with the natural setting of your campsite.

Featuring two access points at each gable, this lodge opens easily with its removable canvas, allowing for an open-air experience.

General features

Size of lodge:

23 m², 34 m², 46 m²

Your KENYA EVENT projects will be subject to prior validation by our design office.

General structure

Framework: pressure-treated pine, 68 x 68 mm + zinc-plated steel connectors and black polyester paint.
Max height: 1,80 m.

Canvas

Side panel: coated PVC 640 g/m² - M2.
Gable: coated PVC 640 g/m² - M2.
Canvas tensioning: ground clips and rails.

The ultra-reinforced wooden structure can support the organisation of multiple events.

Stilt floor

To be positioned on gravelled slabs.

Adjustable flooring that adapts to the configuration of your land.

Underfloor tarpaulin to prevent cold draughts rising.

Autoclave treatment.

Height (4 steps):
90 cm max. at the front.

TRIGANO floors can be joined together to create large, open, communal spaces.
