Over **90 years** of experience

and development in the concept of leisure and HPA*. Manufactured in France at our factories in Sarthe, Drôme and Loiret.

Technical innovations

in fabric treatment and ease of handling (assembly / dismantling).

Real-life **testing**

Our designs are assembled and tested outdoors over several years at our production sites.

Commitment **to quality control**

throughout all our manufacturing processes to ensure a sustainable investment for you.

HPA = hôtellerie de plein-air (outdoor accommodation).

1935

Launch of the TRIGANO brand and the marketing of textile products under the TRIGANO name.

1936

Introduction of paid holidays in France. TRIGANO begins selling tents, including the famous “Canadienne”.

1945

The TRIGANO company is founded by Raymond TRIGANO and his sons. It specialises in the distribution of camping and sporting goods.

1971

The company is expanding its expertise by also designing and manufacturing caravans.

1974

Due to financial reasons, Crédit Lyonnais took control of TRIGANO, which would be privatised about ten years later.

1981

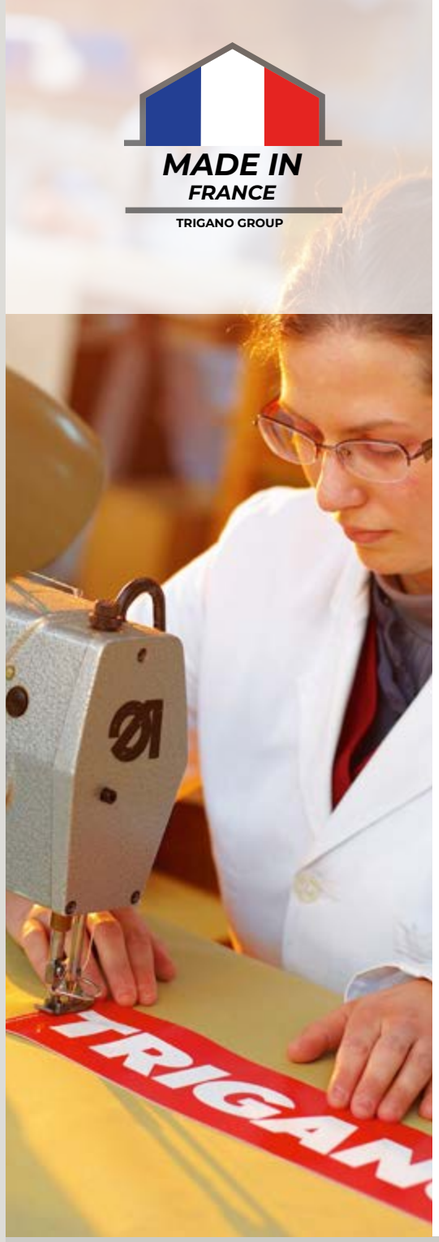

François Feuillet joins TRIGANO and launches the manufacturing of motorhomes, trailers, and garden equipment.

1998

TRIGANO is listed on the stock exchange and begins a series of acquisitions, mainly in the motorhome sector.

The **TRIGANO** experience

Expertise

The floor

Scandinavian wood from sustainably managed forests.

The autoclave treatment of the pine ensures optimal durability, essential for our lodges and bungalows.

The structure

Made of wood or steel, our structures are weather-resistant and can be left up all year round.

The metal parts are made from galvanised steel and the timber frame from autoclaved pine.

The canvas

The roof is made from M2 PVC. The tent is made from M1 polycotton fabric or M2 PVC, depending on the model.

The canvases are waterproofed and treated to be resistant to UV rays, rips and mould.

High quality fabrics

Polycotton fabric

- KENYA
- STEPPE
- MOOREA

This technology provides various advantages:

- M1 fireproof properties for extra safety and protection
- Improved resistance
- Exceptional aesthetics with a cotton-like appearance.

PVC fabric

- All roofs
- The walls of the MARQUISES and BALI

Used mainly for our roofs, PVC fabrics offer:

- M2 fireproof properties for extra safety and protection
- Durability and resistance
- Easy maintenance

TRIGANO services

Delivery

From trucks to trailers, with or without forklifts, depending on the chosen options. The whole process is carried out **safely** with our partners.

Assembly

This must be carried out correctly to ensure the safety and durability of the lodges. TRIGANO offers you **a specially adapted solution** for the best possible assembly.

TRIGANO offers you **turnkey installation**.

- A pre-site visit to check the feasibility of the project and the location of the plots;
- Delivery and unloading using our forklift trucks by a CACES 3 and 9 certified forklift operator;
- Assembly of all the goods (floors, lodges and kits) by our teams;
- Connection of electricity and plumbing to the site's utility systems;
- An inventory at the end of the installation.

GUARANTEE (5 years) on all equipment fitted excluding peripherals*

* Documents relating to warranties for ancillary equipment not designed by TRIGANO MDC (e.g. toilet cistern, furniture, tent zips, stove, fridge, hob, sink, oven, heating, water heater, air conditioning, light fittings, etc.), which are subject to specific regulations or approvals and are part of your tent, will be given to you when it is delivered. This equipment is covered solely by the commercial warranty provided by its respective manufacturer or vendor.
