Over 90 years of experience

and development in the concept of leisure and HPA*. Manufactured in France at our factories in Sarthe, Drôme and Loiret.

Technical innovations

in fabric treatment and ease of handling (assembly / dismantling).

Real-life testing

Our designs are assembled and tested outdoors over several years at our production sites.

Commitment to quality control

throughout all our manufacturing processes to ensure a sustainable investment for you.

HPA = hôtellerie de plein-air (outdoor accommodation).

1935

Launch of the TRIGANO brand and the marketing of textile products under the TRIGANO name.

1936

Introduction of paid holidays in France. TRIGANO begins selling tents, including the famous "Canadienne".

1945

The TRIGANO company is founded by Raymond TRIGANO and his sons. It specialises in the distribution of camping and sporting goods.

1971

The company is expanding its expertise by also designing and manufacturing caravans.

1974

Due to financial reasons, Crédit Lyonnais took control of TRIGANO, which would be privatised about ten years later.

1981

François Feuillet joins TRIGANO and launches the manufacturing of motorhomes, trailers, and garden equipment.

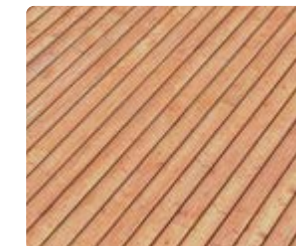

1998

TRIGANO is listed on the stock exchange and begins a series of acquisitions, mainly in the motorhome sector.

The TRIGANO experience

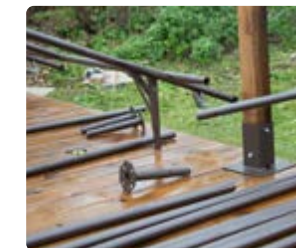

Expertise

The floor

Scandinavian wood from sustainably managed forests.

The autoclave treatment of the pine ensures optimal durability, essential for our lodges and bungalows.

The structure

Made of wood or steel, our structures are weather-resistant and can be left up all year round.

The metal parts are made from galvanised steel and the timber frame from autoclaved pine.

The canvas

The roof is made from M2 PVC. The tent is made from M1 polycotton fabric or M2 PVC, depending on the model.

The canvases are waterproofed and treated to be resistant to UV rays, rips and mould.

High quality fabrics

Polycotton fabric

- Ø KENYA
- Ø STEPPE
- Ø MOOREA

This technology provides various advantages:

- ✓ M1 fireproof properties for extra safety and protection
- ✓ Improved resistance
- ✓ Exceptional aesthetics with a cotton-like appearance.

PVC fabric

- Ø All roofs
- Ø The walls of the MARQUISES and BALI

Used mainly for our roofs, PVC fabrics offer:

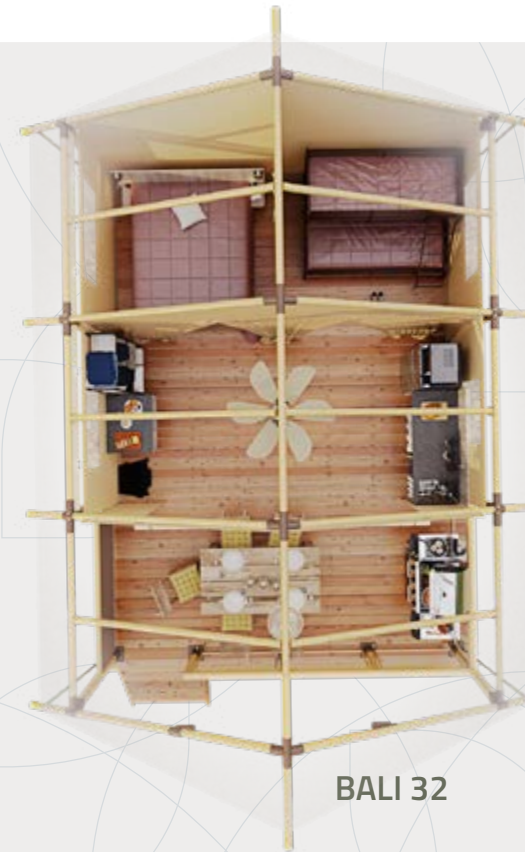

- ✓ M2 fireproof properties for extra safety and protection
- ✓ Durability and resistance
- ✓ Easy maintenance

TRIGANO services

Delivery

From trucks to trailers, with or without forklifts, depending on the chosen options. The whole process is carried out **safely** with our partners.

Assembly

This must be carried out correctly to ensure the safety and durability of the lodges. TRIGANO offers you **a specially adapted solution** for the best possible assembly.

TRIGANO offers you turnkey installation.

- ✓ A pre-site visit to check the feasibility of the project and the location of the plots;
- ✓ Delivery and unloading using our forklift trucks by a CACES 3 and 9 certified forklift operator;
- ✓ Assembly of all the goods (floors, lodges and kits) by our teams;
- ✓ Connection of electricity and plumbing to the site's utility systems;
- ✓ An inventory at the end of the installation.

GUARANTEE on all equipment fitted (5 years) excluding peripherals*

* Documents relating to warranties for ancillary equipment not designed by TRIGANO MDC (e.g. toilet cistern, furniture, tent zips, stove, fridge, hob, sink, oven, heating, water heater, air conditioning, light fittings, etc.), which are subject to specific regulations or approvals and are part of your tent, will be given to you when it is delivered. This equipment is covered solely by the commercial warranty provided by its respective manufacturer or vendor.

KENYA 46

with or without bathroom

A comfortable sleeping area

A lodge for the whole family

The KENYA lodges are designed with two bedrooms located at the back of the structure.
The parents' room includes a double bed, while the second bedroom features a mezzanine bed that can accommodate three people.

General features

Size of lodge:

46 m²

Bedroom area:

2,25 x 2,15 = 4,80 m² Children
2,25 x 2,15 = 4,80 m² Parents

Terrace area:

2,20 x 4,90 = 10,80 m²

Number of bedrooms:

2 bedrooms
4 to 6 people

General structure

Framework: pressure-treated pine, 68 x 68 mm, with galvanised steel connectors and black polyester paint finish.
Guardrail with protective mesh.

Post height: 2 m. The post height corresponds to the wall height.

Canvas

Tent: polycotton fabric 420 g/m² – M1.
Roof: PVC 640 g/m² – M2.
Canvas tensioning: ground clips and rails.
Roof tensioning system on the frame: with stainless steel ratchet straps.
Terrace side panels (optional): PVC 640 g/m² – M2.

Stilt floor

To be positioned on
gravelled slabs.

Adjustable flooring that
adapts to the configuration
of your land.

Underfloor tarpaulin to
prevent cold draughts
rising.

Autoclave treatment.

Height (4 steps):
90 cm max.

Height (7 steps):
160 cm max.

Floor area:
L x W =
9,76 x 5,36 = 52,31 m²

Floor area with XL terrace:
L x W =
11,52 x 5,36 = 62 m²

KENYA 34 - gable-end version

KENYA 34

with or without bathroom

A wooden frame with cotton-look canvas

The KENYA can remain assembled all year round.

The KENYA has a side height of 2 metres for extra space and brightness. It is available either with a new, very bright veranda or with an entrance gable located on the inner part of the terrace (both options are compatible with each other on the KENYA 34 model, with or without a bathroom). Our furniture kits coordinate perfectly with the wooden frame and canvas.

General features

KENYA EVENT

KENYA EVENT

Glamping party spaces

Derived from its lodge version, the KENYA EVENT provides an ideal glamping space for games, parties, or for creating a dining area your guests will love.

A delightful experience, these new units will blend in perfectly with the natural setting of your campsite.

Featuring two access points at each gable, this lodge opens easily with its removable canvas, allowing for an open-air experience.

General features

Size of lodge:

23 m², 34 m², 46 m²

Your KENYA EVENT projects will be subject to prior validation by our design office.

General structure

Framework: pressure-treated pine, 68 x 68 mm + zinc-plated steel connectors and black polyester paint.
Max height: 1,80 m.

Canvas

Side panel: coated PVC 640 g/m² - M2.
Gable: coated PVC 640 g/m² - M2.
Canvas tensioning: ground clips and rails.

The ultra-reinforced wooden structure can support the organisation of multiple events.

Stilt floor

To be positioned on gravelled slabs.

Adjustable flooring that adapts to the configuration of your land.

Underfloor tarpaulin to prevent cold draughts rising.

Autoclave treatment.

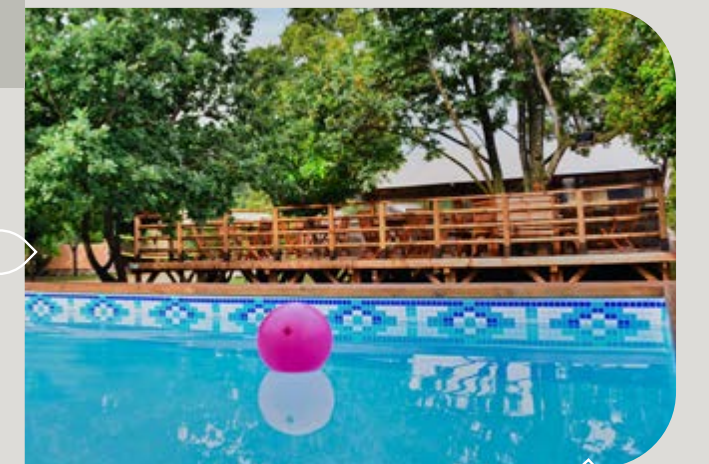

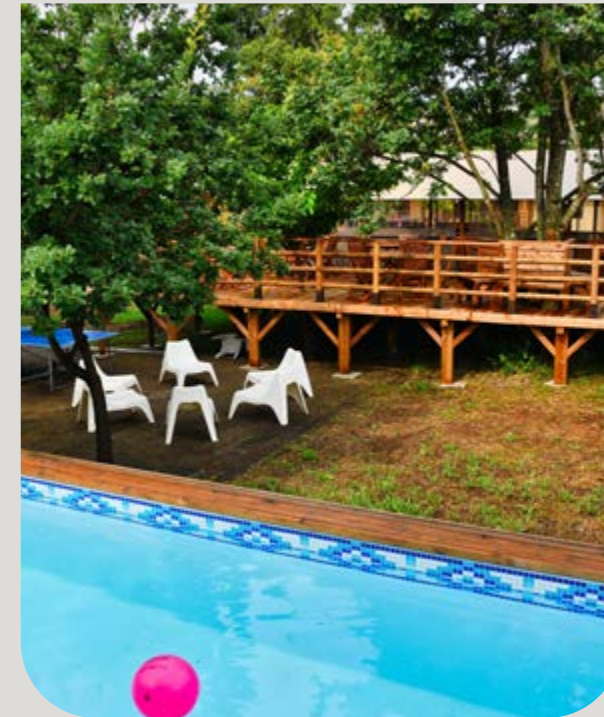

Height (4 steps):
90 cm max. at the front.

TRIGANO floors can be joined together to create large, open, communal spaces.
